

**Expectations haven't risen.
They've reset.**

Why Oracle's AI is unique

AI where your data and processes live

One engineered system
not stitched together after the fact

Security, privacy, governance
are embedded at every layer

Choice by design
across models, clouds, and architectures

Built for scale
from first workload to global operations

Customer data control
stays with you, wherever data lives

Oracle

Agents
coordinate workflows

Humans
steer the decisions

Real outcomes right now

15x

faster multimodal AI
training at half the cost

Cutting
time-to-hire
from 45 to

21 days

>99%

uptime and on-demand
customer access to data

**With Oracle
you decide**
